

PEVACARE UREA

The active substance-rich, high-quality **SKIN CARE CREAM** with 5 % urea for the care and regeneration of damaged skin.

PROPERTIES

PEVACARE UREA is a high-quality Skin Care Cream rich in active ingredients for application after light to heavy skin stress.

- ✓ moisturising - with 5 % urea, it is suitable for the intense treatment of dry skin.
- ✓ is absorbed quickly.
- ✓ with consistent application, it can promote the regeneration of affected skin areas.
- ✓ is suitable for use for people with sensitive skin.

COMPOSITION

PEVACARE UREA consists of selected, high-quality raw materials and a selection of different active ingredients:

- urea has moisturising properties and is considered to be a natural moisturising factor. Urea binds moisture in the upper corneal layer and helps it to regulate moisture balance*.
- glycerin is also a very good moisturiser that enhances the skin's ability to store water*.
- d-panthenol is a provitamin of pantothenic acid (Prov. B5) which is well absorbed by the skin. D-panthenol promotes wound healing, stimulates epithelisation, cell division and skin pigment build-up*.
- witch hazel extract has astringent and anti-inflammatory properties*.

The use of these ingredients makes **PEVACARE UREA** an ideal skin care product of extraordinary quality.

- is pH-neutral to skin
- is unscented
- is silicon-free
- was rated „very good“ in a dermatological-allergological test on subjects with sensitive skin.

APPLICATION

Make sure your skin is clean and dry after completing work and then rub in **PEVACARE UREA** thoroughly.

PEVACARE UREA is suitable for all-over body use. Regular application is necessary to achieve a sustainable effect.

PRODUCT DESCRIPTION

PEVACARE UREA is a white to light yellow oil-in-water cream, unscented.

pH-value: 5.4 – 5.8

Density: approx. 0.96 g / cm³ (20 °C)

*according to literature

LEGAL REGULATIONS

PEVACARE UREA is subject to the EU Cosmetics Regulation and in Germany to the Food, Consumer Goods and Feed Code (LFGB).

All our cosmetic products are manufactured according to GMP (Good Manufacturing Practice) and undergo microbial quality control.

STORAGE INFORMATION

PEVACARE UREA can be stored in closed original containers at room temperature for at least 24 months.

SKIN CARE TIPS

In the unavoidable handling of harmful substances, a suitable skin protection product should be used to prevent skin damage before starting work (e.g. **PEVAPERM**, the generally applicable Skin Protection Lotion).

Depending on the type of soiling, a suitable skin cleansing product should be applied (e.g. **PEVASTAR** for medium to heavy soiling, or **PEVA PREMIUM** for extreme soiling).

FURTHER INFORMATION

Group leaflets, specifications and dermatological reports are available on request. Certificate: The product passed dermatological-allergological tests carried out under medical supervision on sensitive skin with the rating „very good“.
