

PEVASAN HRL

The particularly mild, **skin cleansing lotion** with balanced refatting.

PROPERTIES

PEVASAN HRL is a particularly mild skin cleansing lotion for the removal of light soiling, as it occurs e.g. in offices and administration, in medical departments and care facilities, in the food processing industry, for light storage and packaging activities.

- ✓ Is very skin-friendly due to a high proportion of moisturising substances.
- ✓ Can be applied to the entire body and can also be used for washing hair.

COMPOSITION

PEVASAN HRL consists of selected, high-quality raw materials, which are to a large extent of plant origin.

- Contains a complex, synergistic surfactant system, with so-called sugar surfactants, which ensures the skin-friendly removal of dirt.
- Contains a high proportion of a balanced refatting system, which can counteract degreasing of the skin with glycerine derivatives and skin-related care substances, especially for frequent washing.
- Is a blue coloured, pearlescent skin cleansing product.
- Is pH-skin neutral
- Is silicone-free

- Dermatologically tested with a rating of „very good“.
- Has proven itself in practice based on many years of experience.

APPLICATION

Apply **PEVASAN HRL** to damp skin or hair and rub in. Then rinse with water and dry off.

Note: Avoid contact with eyes. In the event of contact with the eyes, rinse immediately with plenty of water.

PRODUCT DESCRIPTION

PEVASAN HRL is a blue coloured, pearlescent, slightly viscous lotion, pleasantly scented.

pH-value: ca. 5.4 - 5.8

Density: approx. 1.04 g/cm³ (20 °C)

LEGAL REGULATIONS

PEVASAN HRL is subject to the EU Cosmetics Regulation and in Germany to the Food, Consumer Goods and Feed Code (LFGB).

All cosmetic products in the PEVA range are manufactured according to GMP (Good Manufacturing Practice) and are subject to microbial quality assurance control.

STORAGE INSTRUCTIONS

PEVASAN HRL can be stored in closed original containers at room temperature for at least 24 months.

SKIN CARE TIPS

In case of exposure to harmful substances, an appropriate skin protection product should be used before work to prevent skin damage (e.g. the generally applicable skin protection lotion **PEVAPERM**).

After work, the skin should be regularly rubbed with a suitable skin care product (e. g. **PEVALIND**, the active substance-rich skin care lotion) to regenerate the skin.

FURTHER INFORMATION

Group leaflets, specifications and dermatological reports are available on request. Certificate: The product **PEVASAN HRL** passed dermatological-allergological tests carried out under medical supervision with the rating „very good“.
