TRUST IN QUALITY

For the protection of your skin

More than 55 years of experience and development work have resulted in the expertise of Paul Voormann GmbH with our high-performance products for professional skin protection.

We are a family business run by the 2nd and 3rd generation and meet the changing demands of today's working world with continuous innovation and further development of products and processes. From development, production and filling through to quality assurance and storage - all steps take place at our site in Velbert.

Our skin protection range with its clear points system includes individual and particularly effective product combinations in the areas of skin protection, skin cleansing and skin care for a wide range of applications in industry, trade and other commercial and public areas.

- **SKIN PROTECTION**
- ● **SKIN CLEANSING**
- ● ● **SKIN CARE**

The focus is on the acceptance and compatibility of our products for people and the environment. The raw materials used are selected very carefully and according to high quality criteria.

The entire product range is manufactured in accordance with GMP (Good Manufacturing Practice) and is subject to constant quality assurance checks.

The independent dermatological institute Dermatest in Münster has confirmed the high quality standard of our products for many years. Selected products are also specifically tested on sensitive skin.

We also offer a wide range of modern dispenser system solutions for workshops, industry and washrooms, some of which we have developed ourselves.

The topics of environmental protection and sustainability are particularly important to us. Detailed information on our activities can be found in the separate section "Our sustainability" on page 6.

Our company is certified in accordance with DIN EN ISO 9001:2015 and we are a member of renowned German associations in the chemical, cosmetics and occupational health and safety sectors.

We combine a high level of service and flexibility with our corporate values of loyalty and reliability. This results in the trust of our customers and trading partners all over the world.

OUR SUSTAINABILITY

Sustainability is a key issue in today's world. Our aim is to further reduce the impact of our business activities on the environment with each passing year. We have determined our Scope 1 and Scope 2 emissions and achieved a reduction of these to virtually "0" (including compensation measures). The next step will be to look at Scope 3 emissions.

Our activities:

In 2020, a 100 kWp solar system was installed on our production hall, followed by a 30 kWp solar system on the administration building in spring 2021. A considerable proportion of the company's own electricity consumption is therefore now produced in-house. The additional electricity required is purchased as green electricity (green electricity tariff). A further expansion of solar energy is planned for 2024. So far, 6 wallboxes are available for charging e-cars within the company.

We also offset various CO₂ emissions through the climate protection organization ClimatePartner. This involves offsetting the entire gas consumption of production and emissions from company travel through climate protection projects. Certificates from ClimatePartner document the offsetting. These can be found on our homepage. We have also succeeded in reducing gas consumption by approx. 15% through energy-saving measures.

Since 2019, we have a partnership with one of the world's largest tree planting organizations **EDEN REFORESTATION PROJECT**. Since then, more than 197.636 trees have been planted as part of a sales campaign, but also through the company's own donations (as of 2019 - 2023). A certificate from EDEN proves this.

Where possible, raw materials based on palm oil are purchased as "mass balance" quality and therefore come from sustainable cultivation, which is monitored by the RSPO (Roundtable on Sustainable Palm Oil). A large number of particularly environmentally friendly products with EU ECOLABEL are available for our customers to choose from (see pages 8 and 9). The use of recyclates from the plastic cycle is being planned for several types of packaging. All cardboard packaging is now made from recycled fibers (testliner quality).

Waste from production (cardboard, plastic) is separated, pressed into unmixed raw material bales and sent for recycling.

We also donate to various organizations in the field of climate protection (e.g. in 2023 to the WWF, the Clean Air Task Force and justdiggit).

Wildflower meadows and bird-friendly, native shrubs and hedges around our three buildings delight various species of insects and birds.

EU ECOLABEL

Environmentally conscious hygiene

The EU Ecolabel is the European ecological label sign recognised in all Member States of the European Union, but also in Norway, Liechtenstein and Iceland. The voluntary label, introduced in 1992 by an EU regulation, has become a reference for consumers who want to help reduce pollution by purchasing greener products and services.

For cosmetic products, the EU Ecolabel stands for:

- A lower burden on aquatic ecosystems
- Strict compliance with biodegradability requirements
- Restriction of packaging waste

Paul Voormann currently offers five products with EU Ecolabel, a foam soap, a hand cleaner for coarse soiling and three liquid soaps for cleansing of hands and body.

Three of them (**PEVAFOAM ECO**, **PEVACLEAN ECO** and **PEVASAN ECO**) are suitable for use for sensitive skin.

PEVASAN ECO

PEVAFOAM ECO

PEVAPLUS

PEVAPLUS PURE

PEVACLEAN ECO

SKIN PROTECTION

Appropriate skin protection products are applied to the skin prior to work as protection against aqueous or non-aqueous substances as well as against UV radiation or other special forms of skin stress. Skin protection products can help prevent occupational skin diseases if used consistently. In addition, skin protection products also make it easier to cleanse heavy soiling.

PEVAPERM

AS PROTECTION AGAINST AQUEOUS AND NON-AQUEOUS SUBSTANCES

AREAS OF APPLICATION

Aqueous and non-aqueous substances - some examples are:

- cooling lubricants, aqueous solutions
- oils, greases, tar, bitumen, paints, soot, pigments, cement, lime
- various adhesives, PU foams, sealing materials

PROPERTIES

- generally applicable
- very absorbent
- facilitates skin cleansing
- special polymer-based film-forming agent protects the skin from various substances
- reduces contact of substances with the skin
- **suitable for sensitive skin**

COMPOSITION

- lotion (O/W emulsion)
- with natural chamomile active ingredient (α -bisabolol)
- non-greasing
- pH-neutral to skin
- scented
- silicone-free
- dermatologically tested on sensitive skin

UNIT SIZES

100 ml tube, 0.5 l dispenser bottle, 1 l bottle, 1 l soft bottle, 2 l soft bottle

PEVAPERM PURE

AS PROTECTION AGAINST AQUEOUS AND NON-AQUEOUS SUBSTANCES - UNSCENTED

AREAS OF APPLICATION

Aqueous and non-aqueous substances - some examples are:

- cooling lubricants, aqueous solutions
- oils, greases, tar, bitumen, paints, soot, pigments, cement, lime
- various adhesives, PU foams, sealing materials

PROPERTIES

- generally applicable
- very absorbent
- facilitates skin cleansing
- special polymer-based film-forming agent protects the skin from various substances
- reduces contact of substances with the skin
- **suitable for sensitive skin and HACCP rated**

COMPOSITION

- lotion (O/W emulsion)
- with natural chamomile active ingredient (α -bisabolol)
- non-greasing
- pH-neutral to skin
- unscented
- silicone-free
- dermatologically tested on sensitive skin

UNIT SIZES

100 ml tube, 1 l bottle, 1 l soft bottle, 1 l Care&Clean bottle

PEVA PROTECT

AS PROTECTION AGAINST
NON-AQUEOUS SUBSTANCES

AREAS OF APPLICATION

Non-aqueous substances - some examples are:

- oils, fats, lubricants
- cast-iron and graphite dusts
- paints, varnishes, adhesives
- soot, tar & bitumen
- many other strongly adhering, non-aqueous substances

PROPERTIES

- facilitates the cleaning process by adding dirt-binding ingredients and skin-friendly, mild surfactants
- in some cases it is not necessary to use a detergent as the dirt can be easily washed off with water
- can be easily spread on the skin and is quickly absorbed

COMPOSITION

- suspension
- washable
- non-greasing
- pH-neutral to skin
- scented
- silicone-free
- dermatologically tested
- without preservatives (of Annex V; EU Cosmetics Regulation)

UNIT SIZES

100 ml tube, 1 l bottle, 1 l soft bottle

PEVASAN SF

STRONG GREASING PROPERTIES - AS
PROTECTION AGAINST AQUEOUS AGENTS

AREAS OF APPLICATION

Aqueous substances - some examples are:

- aqueous solutions, dispersion paints, mortar
- drilling emulsions, lime milk
- cleansing agent
- gardening and agriculture
- hairdressing

PROPERTIES

- protects against water-soluble pollutants
- promotes suppleness of the skin

COMPOSITION

- cream (W/O emulsion)
- strong greasing properties
- very absorbent
- scented
- silicone-free
- dermatologically tested

UNIT SIZES

100 ml tube

PEVASUN UV50

AS PROTECTION AGAINST SKIN DAMAGE BY ULTRAVIOLET RAYS - WITH SUN PROTECTION FACTOR 50 - UNSCENTED

AREAS OF APPLICATION

- UV exposure to technical radiation sources (e. g. during welding work)
- UV exposure to solar radiation (e. g. in road construction and leisure time)

PROPERTIES

- with sun protection factor 50
- high protection against UV-A and UV-B
- high protection against UV-C radiation
- moisturizing and skin-caring effect

COMPOSITION

- suspension (O/W emulsion)
- waterproof
- very absorbent
- unscented

UNIT SIZES

100 ml tube, 1 l soft bottle

PEVA FOOT SPRAY

DEODORIZING AND REFRESHING FOOT SPRAY

AREAS OF APPLICATION

- protects the feet from excessive perspiration in work shoes and the development of unpleasant odors

PROPERTIES

- in addition to the protective effect, the product also contains nourishing, natural substances that can hydrate the skin
- pleasant, natural smelling spray that is easy to spray on and that does not wet socks and shoes
- can also be used to deodorize footwear after testing the material compatibility in an inconspicuous area

COMPOSITION

- suitable for preventing skin softening and sweating. This effect is based on a high proportion of a special extract containing tannins (Hamamelis Virginiana = witch hazel)
- with glycerine
- contains rosemary, sage and eucalyptus essential oil
- silicone-free and contains no preservatives (of Annex V; EU Cosmetics Regulation)

UNIT SIZES

100 ml bottle

PEVASAN GEL

HYGIENIC HAND DISINFECTANT (VAH LISTED)
AND SKIN PROTECTION GEL FOR
GLOVE WEARERS - UNSCENTED

AREAS OF APPLICATION

- protects against skin softening when wearing gloves and shoes
- during mechanical load and work in moist areas
- for hygienic hand disinfection

PROPERTIES

- disinfects bacteria, yeasts, fungi and enveloped viruses (e.g. **SARS-CoV-2** and influenza)
- solidifies the upper skin layers and strengthens the skin protective function
- reduces swelling of the skin
- reduces fingerprints and is absorbed very quickly, VAH-listed
- BAuA-Reg. No. N-36653 - use biocidal products with care. Always read label and product information before use
- **HACCP rated**

COMPOSITION

- alcoholic-aqueous gel with witch hazel extract
- with moisturizing substances and skin care substances: Glycerine, D-panthenol, chamomile active ingredient (α -bisabolol)
- non-greasing and silicone-free
- without preservatives (of Annex V; EU Cosmetics Regulation) and perfume oils
- dermatologically tested

UNIT SIZES

20 ml tube, 100 ml tube, 1 l bottle,
1 l Care&Clean bottle, 1l soft bottle, 2 l soft bottle

PEVASEPT

HYGIENIC HAND SANTIZER

AREAS OF APPLICATION

- when used correctly - protection against diseases caused by common pathogenic germs
- for hygienic hand disinfection

PROPERTIES

- acts bactericidal (incl. MRSA), levurocidal, tuberculocidal, limited virucidal PLUS (e.g. **SARS-CoV-2**, norovirus, adenovirus, rotavirus), effective against polioviruses
- VAH listed
- BAuA-Reg.N. N-85583 - use biocides safely. Always read the label and product information before use

COMPOSITION

- alcoholic-aqueous liquid
- with high-quality refatting
- unscented
- pH-neutral
- silicone-free

UNIT SIZES

100 ml bottle, 1 l bottle, 1 l Care&Clean bottle

PEVAPLUS

 ENVIRONMENTALLY FRIENDLY,
MILD SKIN CLEANSING LOTION

AREAS OF APPLICATION

For light soiling, such as:

- in office and administration
- light storage and packaging activities
- in washrooms in general

PROPERTIES

- mild cleansing lotion
- good skin tolerance
- refatting
- suitable for the cleansing of hands and body
- was awarded the EU Ecolabel

COMPOSITION

- lotion
- scented
- pH-neutral to skin
- pearlescent
- silicone-free
- dermatologically tested

UNIT SIZES

0,5 l dispenser bottle, 1 l bottle, 1 l soft bottle,
2 l soft bottle, 10 l canister

PEVAPLUS PURE

 ENVIRONMENTALLY FRIENDLY,
MILD SKIN CLEANSING LOTION -
UNSCENTED

AREAS OF APPLICATION

For light soiling, such as:

- in office and administration
- light storage and packaging activities
- in the food-processing trade
- in washrooms in general

PROPERTIES

- mild cleansing lotion
- good skin tolerance
- refatting
- suitable for the cleansing of hands and body
- was awarded the EU Ecolabel

COMPOSITION

- lotion
- unscented
- pH-neutral to skin
- pearlescent
- silicone-free
- dermatologically tested

UNIT SIZES

1 l bottle, 1 l soft bottle, 2 l soft bottle, 10 l canister

PEVASAN HRL

 HIGH-QUALITY, PARTICULARLY MILD SKIN CLEANSING LOTION

AREAS OF APPLICATION

For light soiling, such as:

- in office and administration
- in medical departments and nursing facilities
- in the food-processing trade
- light storage and packaging activities
- in washrooms in general

PROPERTIES

- very good skin tolerance
- gentle to the skin thanks to sugar surfactants
- refatting with glycerine derivatives
- suitable for the cleansing of hands, body and hair

COMPOSITION

- lotion
- scented
- pH-neutral to skin
- pearlescent
- coloured blue
- silicone-free
- dermatologically tested on sensitive skin

UNIT SIZES

250 ml shower gel tube, 0.5 l dispenser bottle, 1 l bottle, 1 l soft bottle, 2 l soft bottle, 10 l canister

PEVASAN PURE

 HIGH-QUALITY, PARTICULARLY MILD SKIN CLEANSING LOTION - UNSCENTED

AREAS OF APPLICATION

For light soiling, such as:

- in office and administration
- in medical departments and nursing facilities
- in the food-processing trade
- light storage and packaging activities
- in washrooms in general

PROPERTIES

- particularly mild skin cleansing lotion
- very good skin tolerance
- gentle to the skin thanks to sugar surfactants
- intensive refatting with glycerine derivatives
- suitable for the cleansing of hands, body and hair
- **suitable for sensitive skin** and **HACCP rated**

COMPOSITION

- lotion
- unscented
- pH-neutral to skin
- pearlescent
- without added colour
- silicone-free
- dermatologically tested

UNIT SIZES

0.5 l dispenser bottle, 1 l bottle, 1 l soft bottle, 2 l soft bottle, 10 l canister

PEVASAN ECO

 ENVIRONMENTALLY FRIENDLY, HIGH-QUALITY AND MILD SKIN CLEANSING LOTION

AREAS OF APPLICATION

For light soiling, such as:

- in office and administration
- in medical departments and nursing facilities
- in washing rooms in general
- light storage and packaging activities

PROPERTIES

- mild skin cleansing lotion
- very good skin tolerance
- gentle to the skin thanks to sugar surfactants and glycerine
- refattening
- suitable for the cleansing of hands and body
- **suitable for sensitive skin**
- was awarded the EU Ecolabel

COMPOSITION

- slightly viscous lotion
- scented
- pH-neutral to skin
- transparent (non-pearlescent)
- without added colour
- silicone-free
- dermatologically tested

UNIT SIZES

1 l Care&Clean bottle, 1 l soft bottle,
2 l soft bottle

FOAM SOAP

With our foam soaps, you can pamper the hands of your colleagues, employees or customers with a silky-soft foam that turns washing your hands into a special experience. A high concentration of glycerine, a skincare substance, prevents the skin from drying out.

Thorough hand washing several times a day reduces the risk of the transmission of many illnesses and thus also reduces follow-up costs and absenteeism due to illness. With high-quality foam soaps, people are offered an additional incentive to wash their hands regularly.

Our foam soaps are yielding in productive operation.

PEVAFOAM ECO

 ENVIRONMENTALLY - FRIENDLY,
HIGH-QUALITY FOAM SOAP - UNSCENTED

AREAS OF APPLICATION

For light soiling, such as:

- in office and administration
- in washing rooms in general
- in the food-processing trade

PROPERTIES

- gentle to the skin thanks to sugar surfactants and glycerine
- suitable for the cleansing of hands and body
- **suitable for sensitive skin** and **HACCP rated**
- was awarded the EU Ecolabel

COMPOSITION

- aqueous solution
- fine-bubble, creamy foam
- unscented
- pH-neutral to skin
- silicone-free
- dermatologically tested on sensitive skin

UNIT SIZES

1 | Care&Clean bottle

PEVAFOAM FRESH

 HIGH-QUALITY FOAM SOAP -
REFRESHING

AREAS OF APPLICATION

For light soiling, such as:

- in office and administration
- in washing rooms in general

PROPERTIES

- gentle to the skin thanks to sugar surfactants and glycerine
- suitable for the cleansing of hands and body

COMPOSITION

- aqueous solution
- fine-bubble, creamy foam
- scented
- pH-neutral to skin
- silicone-free
- dermatologically tested

UNIT SIZES

1 | Care&Clean bottle

SENSITIVE CLEANING WITH TINY PEARLS

When traditional abrasive products are not desired!

The extremely fine, barely perceptible Tiny Pearls made of carnauba wax remove dirt particularly gently thanks to their soft structure and small size. This means that sensitive skin can be cleaned of medium to heavy soiling in a sensitive way. The carnauba wax comes from sustainable fair trade cultivation and is completely biodegradable.

PEVACLEAN SENSITIVE

ESPECIALLY GENTLE, UNSCENTED HAND
WASHING CREAM - WITH TINY PEARLS
- FOR SENSITIVE SKIN

AREAS OF APPLICATION

For the sensitive removal of medium to heavy soiling from the skin when traditional abrasive products are not desired.

- oils, fats, lubricants
- dusts, graphite, soot

PROPERTIES

- cleanses thoroughly and gently
- gentle on the skin
- intensive refatting
- does not clog drains
- without a strong abrasive effectes
- specially **suitable for sensitive skin** and **HACCP rated**

COMPOSITION

- free-flowing, viscous lotion
- contains ultra-fine Tiny Pearls made from plant-based carnauba wax for gentle dirt removal
- contains an optimally balanced, synergistic surfactant combination
- with high proportion of natural-based refatting
- unscented and pH-neutral to skin
- without preservatives (of Annex V; EU Cosmetics Regulation)
- silicone- and solvent-free
- dermatologically tested on sensitive skin

UNIT SIZES

250 ml tube, 1 l soft bottle, 2 l soft bottle

NATURAL CLEANSING

Biological rubbing agents against dirt

Rubbing agents in skin cleansing products make an important contribution to the removal of heavy soiling. They reinforce the cleansing power of the washing surfactants with a mechanical component and thus enable thorough skin cleansing.

We have always attached great importance to good skin compatibility when selecting our abrasives. This has also been confirmed by the Institut Dermatest for all of our hand cleaners. Some selected hand cleaners against strong dirt (PEVASTAR SOFT, PEVASTAR SOFT PURE and PEVACLEAN ECO) have also been tested on sensitive skin and have received the rating "very good".

In addition to skin compatibility and cleansing power of abrasives, the effects on the environment have been under discussion for quite some time. Plastic particles in waste water must be viewed with a critical eye, as they can enter the aquatic environment under certain circumstances. Therefore, all our products now contain exclusively natural abrasives.

We use rubbing agents made of walnut shell and corn cob meal in our products. Our rubbing agents do not compete with food products because we do not use edible ingredients. The walnut shell abrasive is a powder which is obtained from the shells of already opened walnuts. In the case of corn cob rubbing agents, the corn cob spindle is processed into rubbing agents - the corn grains have been removed during threshing. Corn cobs and walnut shells come from European cultivation. Corn cobs are from genetically non modified plants. Walnut shell rubbing agents feel very fine on the skin, yet at the same time provide very good cleaning properties (similar to former polyurethane rubbing agents). Corn cob rubbing agents feel a little coarser, are lighter in terms of colour and also clean very well.

PEVASTAR

 CONCENTRATED HAND CLEANER
WITH DOUBLE EFFECT

AREAS OF APPLICATION

For the effective removal of heavy soiling in in all industrial sectors, such as for example:

- oils, fats, lubricants
- dusts, graphite, soot
- various types of paint and printer toner

PROPERTIES

- cleans down to the pores
- skin-friendly
- refatting
- does not clog drains

COMPOSITION

- fluid paste with natural rubbing agents made of **corn cob meal**

- contains an optimally balanced, synergistic surfactant combination
- with natural based refatting
- pH-neutral to skin and silicone-free
- suitable for different refill systems
- dermatologically tested

UNIT SIZES

250 ml tube, 1 l bag, 2.5 l bottle,
3 l can, 4 l soft bottle, 5 l canister, 10 l bucket,
10 l canister, 30 l hobbock

PEVASTAR SOFT

 CONCENTRATED HAND CLEANER,
SUITABLE FOR SENSITIVE SKIN

AREAS OF APPLICATION

For the effective removal of heavy soiling in in all industrial sectors, such as for example:

- oils, fats, lubricants
- dusts, graphite, soot
- various types of paint and printer toner

PROPERTIES

- cleans down to the pores
- particularly skin-friendly
- refatting
- does not clog drains
- **suitable for sensitive skin**

COMPOSITION

- fluid paste with skin-friendly, natural rubbing agents made of **walnut shell meal**
- contains an optimally balanced, synergistic surfactant combination
- with high proportion of natural-based refatting
- pH-neutral to skin and silicone-free
- not intended for refill systems
- dermatologically tested on sensitive skin

UNIT SIZES

250 ml tube, 1 l Care&Clean bottle, 1 l soft bottle,
2 l soft bottle, 2.5 l bottle, 3 l can, 4 l soft bottle,
10 l bucket, 10 l canister

PEVASTAR SOFT PURE

CONCENTRATED HAND CLEANER,
SUITABLE FOR SENSITIVE SKIN - UNSCENTED

AREAS OF APPLICATION

For the effective removal of heavy soiling in in all industrial sectors, such as for example:

- oils, fats, lubricants
- dusts, graphite, soot
- various types of paint and printer toner

PROPERTIES

- cleans down to the pores
- particularly skin-friendly
- refattening
- does not clog drains
- **suitable for sensitive skin**

COMPOSITION

- fluid paste with skin-friendly, natural rubbing agents made of **walnut shell meal**
- contains an optimally balanced, synergistic surfactant combination
- with high proportion of natural based refattening
- pH-neutral to skin and silicone-free
- unscented
- dermatologically tested on sensitive skin

UNIT SIZES

250 ml tube, 2 l soft bottle

PEVACLEAN ECO

ENVIRONMENTALLY- FRIENDLY HAND
CLEANER, SUITABLE FOR SENSITIVE SKIN -
UNSCENTED

AREAS OF APPLICATION

For the effective removal of heavy soiling in all industrial sectors, such as for example:

- oils, fats, lubricants
- dusts, graphite, soot
- various types of paint and printer toner

PROPERTIES

- cleans down to the pores
- particularly skin-friendly
- high refattening properties
- does not clog drains
- **suitable for sensitive skin** and **HACCP rated**
- was awarded the EU Ecolabel

COMPOSITION

- fluid paste with skin-friendly, natural rubbing agents made of **walnut shell meal**
- contains an optimally balanced synergistic surfactant combination
- with high proportion of natural-based refattening
- pH-neutral to skin and silicone-free
- unscented
- dermatologically tested on sensitive skin

UNIT SIZES

2 l soft bottle

PEVALIN SPEZIAL

 CONCENTRATED HANDCLEANSING CREAM -
WITH INTENSIVE EFFECT

AREAS OF APPLICATION

For the effective removal of stubborn or strongly adherent soiling caused by:

- synthetic resin, nitro and gravure printing inks
- various adhesives, sealing materials
- oils, fats, tar, bitumen
- PU foams, graphite, resins, soot

PROPERTIES

- cleans deep down to the pores without water
- skin-friendly
- refatting
- does not clog drains

COMPOSITION

- cream (O/W emulsion)
- with skin-friendly natural rubbing agents made of **corn cob meal** and **walnut shell meal**
- with natural shea butter
- with environmentally neutral, skin-friendly ester oils for cleaning support
- pH-neutral to skin and silicone-free
- dermatologically tested

UNIT SIZES

250 ml tube, 0.5 l can, 2 l soft bottle, 3 l can,
10 l bucket, 30 l hobbock

PEVA PREMIUM

 PREMIUM HAND CLEANER – WITH
PARTICULARLY INTENSIVE EFFECT

AREAS OF APPLICATION

For the effective removal of extreme soiling in
in all industrial sectors, such as for example:

- varnishes (e.g. two-component varnishes)
- paints, acrylic paints
- special adhesives, PU foams
- resins (e.g. epoxy resins), etc.
- oils, fats, lubricants, etc.

PROPERTIES

- powerful and reliable cleaning properties
- skin-friendly thanks to good refatting system
- ideal for use in various industrial sectors
- does not clog drains

COMPOSITION

- fluid paste with skin-friendly, natural rubbing agents made of **walnut shell meal**
- with environmentally neutral, skin-friendly ester oils for cleaning support
- pH-neutral to skin
- silicone-free
- dermatologically tested

UNIT SIZES

250 ml tube, 2 l soft bottle, 3 l can

PEVALIN WIPES

 SPECIAL HANDCLEANSING WIPES – WITH INTENSIVE EFFECT

AREAS OF APPLICATION

Specially suited for mobile use, when water is not available. For the removal of stubborn soiling caused by:

- varnishes, paints
- oils, fats, tar, bitumen
- PU foams, resins
- various adhesives

PROPERTIES

- cleans deep down to the pores
- refattening
- **free of rubbing agents**
- usable without water

COMPOSITION

- soaked wipes
- pleasant smell
- skin-friendly ph-value (4.8 - 6.2)
- with environmentally neutral, skin-friendly ester oils for cleaning support
- silicone-free
- dermatologically tested

UNIT SIZES

Bucket with approx. 150 wipes

PEVALIND

ACTIVE SUBSTANCE-RICH, HIGH-QUALITY SKIN CARE LOTION

AREAS OF APPLICATION

Following light to severe skin stress:

- for care after frequent and intensive skin cleansing
- for the regeneration of damaged skin areas
- to maintain skin elasticity

PROPERTIES

- substance-rich
- light refatting properties, easy to apply to skin and quickly absorbent
- suitable for all skin types
- can be used on the entire body
- special moisturiser prevents excessive drying of the skin
- **suitable for sensitive skin**

COMPOSITION

- lotion (O/W emulsion)
- with high-quality skin care components: Natural camomile active ingredient (bisabolol), D-panthenol, keratin, vitamin E and A, natural oils
- pH-neutral to skin
- scented
- dermatologically tested on sensitive skin

UNIT SIZES

100 ml tube, 0.5 l dispenser bottle, 1 l bottle, 1 l soft bottle, 2 l soft bottle

PEVALIND PURE

ACTIVE SUBSTANCE-RICH, HIGH-QUALITY SKIN CARE LOTION - UNSCENTED

AREAS OF APPLICATION

Following light to severe skin stress:

- for care after frequent and intensive skin cleansing
- for the regeneration of damaged skin areas
- to maintain skin elasticity

PROPERTIES

- substance-rich
- light refatting properties, easy to apply to skin and very quickly absorbent
- suitable for all skin types and can be used for the entire body
- special moisturiser prevents excessive drying of the skin
- **suitable for sensitive skin and HACCP rated**

COMPOSITION

- lotion (O/W emulsion)
- with high-quality skin care components: Natural camomile active ingredient (bisabolol), D-panthenol, keratin, vitamin E and A, natural oils
- pH-neutral to skin
- unscented
- dermatologically tested on sensitive skin

UNIT SIZES

100 ml tube, 1 l bottle, 1 l soft bottle, 1 l Care&Clean bottle

PEVACARE

 SKIN CARE CREAM
WITH PANTHENOL

AREAS OF APPLICATION

After light skin stress, such as in:

- office, administration
- medical departments, etc.
- industry, storage

PROPERTIES

- for general skin care
- strong refatting properties - for dry skin
- very absorbent
- suitable for the entire body

COMPOSITION

- cream (O/W emulsion)
- with glycerine and panthenol
- light, fruity fragrance
- pH-neutral to skin
- silicone-free
- dermatologically tested

UNIT SIZES

100 ml tube, 1 l soft bottle, 1 l Care&Clean bottle

PEVACARE UREA

  SUBSTANCE-RICH, HIGH-QUALITY SKIN CARE
CREAM WITH 5 % UREA - UNSCENTED

AREAS OF APPLICATION

Following light to severe skin stress:

- for care after frequent and intensive skin cleansing
- for the regeneration of damaged skin areas
- to increase the moisture content of the skin

PROPERTIES

- substance-rich
- intense fattening properties - with 5 % urea, it is suitable for the intense treatment of dry skin
- very absorbent
- suitable for the entire body
- **suitable for sensitive skin**

COMPOSITION

- cream (O/W emulsion)
- with 5 % urea, glycerine and panthenol
- without perfume oils
- pH-neutral to skin
- unscented
- silicone-free
- dermatologically tested on sensitive skin

UNIT SIZES

100 ml tube, 1 l bottle, 1 l soft bottle,
1 l Care&Clean bottle

SENSITIVE SKIN

Suitable skin-protection products

An increasing number of people suffer from sensitive or hypersensitive skin. There are many reasons for this. In addition to a genetic predisposition, physical stimuli (e. g. mechanical stress), chemical stimuli (e. g. from working materials) or environmental influences (e. g. heat and cold) are possible triggers. Besides this, the psyche also has a great influence on the skin.

To keep the stress at the workplace as low as possible, the skin products used should also be tailored to the special needs of the employees.

The good skin compatibility of our products has always been a particularly important concern for us. Based on our proven standard qualities, we have adapted some products to the special requirements of sensitive skin and developed new products for this purpose.

The products designed for this purpose can generally also be used by all other employees in the company without having to dispense with the usual product benefits (e. g. protection properties or cleaning performance).

The following products are recommended especially for sensitive skin. We have had these products tested on test persons with sensitive skin as part of a dermatological examination under specialist medical supervision. All products were rated "very good".

PEVAPERM

PEVAPERM PURE

PEVASAN PURE

PEVASAN HRL

PEVASAN ECO

PEVACLEAN SENSITIVE

HAND CLEANER FOR THE REMOVAL OF HEAVY SOILING

AREAS OF APPLICATION

For the removal of heavy soiling in in all industrial sectors, such as for example:

- oil, grease, lubricants
- dusts
- various types of paint and toner

PROPERTIES

- cleans down to the pores
- skin-friendly
- refatting
- does not clog drains

COMPOSITION

- fluid paste with natural rubbing agents made of **corn cob meal**
- with natural based refatting
- pH-neutral to skin and silicone-free
- suitable for different refill systems
- dermatologically tested

UNIT SIZES

2 l soft bottle, 3 l can, 4 l can, 5 l canister, 10 l bucket, 30 l hobo

PEVAPURA

★ HANDWASHING PASTE WITH NATURAL WOOD FLOUR RUBBING AGENTS

AREAS OF APPLICATION

For the removal of soiling in many industrial areas, such as:

- oils, fats, dusts, soot
- printer inks, etc.

PROPERTIES

- non-fluid
- cleans down to the pores
- skin-friendly
- does not clog drains

COMPOSITION

- paste
- with skin-friendly **wood flour rubbing agents**
- pH-neutral to skin
- silicone-free

UNIT SIZES

0.5 l can, 10 l bucket

DISPENSER

Hygienic, economical, efficient

With our dispenser systems you can dispense skin protection, skin cleansing and skincare products hygienically and economically. With more than 50 years of experience, we have developed several dispenser systems ourselves, paying particular attention to user-friendliness and durability.

Our skincare products and dispensers are ideally matched:
For trouble-free operation and economical dosing.

THE SOFT BOTTLE SYSTEM

DETAILS ABOUT HANDLING (1 l, 2 l, 4 l soft bottle)

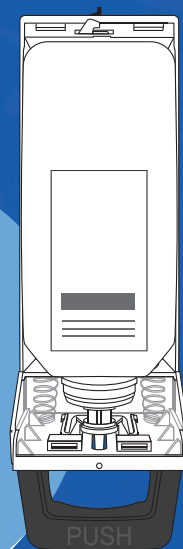

1

Each bottle has an own dosing pump for a peak value of hygiene.

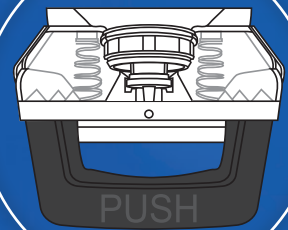

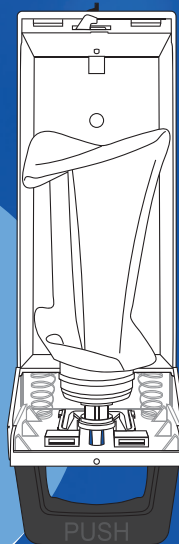

2

The wall mounted dispenser has no direct contact with the hand cleaner. The pumping movement is transmitted from the bush-button to the dosing pump on the bottle.

3

The bottle collapses through a vacuum inside (less volume for waste removal) and has good depletion properties.

NO REFILLING NECESSARY
FOR CLEAN & HYGIENIC HANDS

PEVAMAT CARE&CLEAN

1 L dispenser system

- Available as manually operated dispenser and as a touchless version.
- For this dispenser system, we offer a complete range of skin protection, skin cleansing and skincare products (also hand cleansers with rubbing agents).
- Maximum hygiene thanks to bottles with integrated dosing pumps, which are exchanged when the bottle is changed - and the option to use touchless dispensers.
- No drilling required for installation, as each dispenser has an adhesive pad attached to the back of the dispenser.
- The timeless design and small size make the dispenser system suitable for both industrial and washroom use.

SKIN PROTECTION PROGRAM

Targeted skin protection from the very start

An individually planned application of Paul Voormann PEVA quality products is the basis for professional preventive protection in the field of skin protection. Industrial and trade workers in particular need targeted protection when handling hazardous and harmful substances.

SKIN PROTECTION PLAN - EXAMPLE

FOR MEDIUM AND HEAVY SOILING

Type of skin stress	 Skin protection before work
<p>Soiling due to: General, easily removable, not strongly adhering contamination of the skin.</p> <p>Medium to heavy soiling due to: Oils, greases, (cooling) lubricants, dusts, soot, lime, cement, graphite, printing inks, sealing materials, etc.</p>	<p>PEVAPERM As protection against aqueous and non-aqueous substances</p> <p>PEVA PROTECT As protection against non-aqueous substances</p>

NOW ONLINE

Create your own individual Skin Protection Plan:
Easy - Clear - Personalized - Text input possible

<https://paul-voormann.com/de/hauschutzplan/>

- SKIN PROTECTION
- SKIN CLEANSING
- SKIN CARE

Skin cleansing

Skincare
after work

**Skin cleansing for
light soiling**

PEVAPLUS

Environmentally friendly cleansing lotion

**Skin cleansing for medium and
heavy soiling**

PEVASTAR SOFT

Concentrated hand cleaner,
suitable for sensitive skin

PEVALIND

Substance-rich, high-quality
skincare lotion.
